LINEAR TRANSFORMATIONS OF TWO INDEPENDENT BROWNIAN MOTIONS AND ORTHOGONAL DECOMPOSITIONS OF BROWNIAN FILTRATIONS

CHING-TANG WU AND MARC YOR

Abstract

Brownian motions defined as linear transformations of two independent Brownian motions are studied, together with certain orthogonal decompositions of Brownian filtrations.

2000 Mathematics Subject Classification. 60G15, 60G35, 60J65.

Key words. Brownian motion, Brownian filtration, orthogonal decomposition.
