

HARDY INEQUALITIES IN FRACTIONAL ORLICZ–SOBOLEV SPACES

ARIEL M. SALORT

Abstract: In this article we prove both norm and modular Hardy inequalities for class functions in one-dimensional fractional Orlicz–Sobolev spaces.

2010 Mathematics Subject Classification: 46E30, 35R11, 45G05.

Key words: fractional order Sobolev spaces, nonlocal eigenvalues, g -Laplace operator, nonlocal Hardy inequalities.
